## STUDENTS SPEAKUP

### OUR "COVID" SCHOOL YEAR

By: Maddie Phillips

I actually had fun this summer playing inside and not going anywhere. I could stay in my comfy clothes, sit at my desk, and draw all day. I wasn't too excited about school starting back until a few days before. I thought it would be awkward seeing everyone after such a long time and having to be spaced out in class. The first day felt a little weird but exciting too. I was so happy to see everyone, but it was annoying that we couldn't hug or touch each other. Now that everyone has gotten used to being socially distanced I have become more and more comfortable. Our teachers are doing so much to provide us with fun and cool things to do everyday. So, even though we are having to be socially distanced and wear a mask around the school, I am glad that we are doing it together.

## ROCKSTARS OF THE WEEK

Mrs. Buchanan's Class
